Sajnos az eredetiket aranyarban adjak, így gyartanom kell egyet. Talaltam is egy elegans kis 4 pines csatit, de fennakadtam az eredeti csatlakozó labkiosztasan. Talaltam egy rajzot de nem tudom eldönteni, hogy a kabeleken levő abrazolja, vagy a dokkoloban levő. Ha valakinek dolga volt ilyennel, és tudna segíteni, kérem ne tartsa vissza magát. Koszonom.. Starman 14 5.0 out of 5 stars It works perfectly Great sound as does the remote. It also came with the owners manual which looks like new. I am beyond very pleased. I have a I Pod classic 160GB 3759 WAV files from CDs connected to a Pure I20 docking station which then goes through a DAC ITx DAC. Stunning detail, depth of field, and soundstage. This is my portable system which goes in a carryon luggage bag for planes and trains about 20 lbs.. I am Truly Blessed to be able to figure this out, and to have it.You will not regret it!!I have one in my kitchen, one in my bedroom, and one in my office, that I have used for many years. The sound is great just as advertised and the remote is a nice feature as the radios are located a distance away so its easy to mute or lower volume if needed during phone calls.

The only negative I can say is my 4th and newest radio which I have in my RV, a large tour style bus, the radio is located on a console near the door and the remote is kept next to my recliner in the living room. Due to the fact the new radios no longer have controls on top, I need to return back to

the remote by my recliner when exiting for the day, rather than just touching the off button on top as go out the door. The sale price of the product remained the same, while the cost to produce it was less by eliminating the controls on the radio. I would switch the RV radio with one from my home, except my home is in Illinois and my RV is parked and stored in AZ. Works great as advertised. The sound is so reliably Bose!
